Training as a family constellations facilitator will open up your life fully and authentically. It is a deep self-experience on one hand, while on the other hand transmitting all the basic theoretical and practical principles of Bert Hellinger's healing work. This two part training will take place in the stunning Castlehacket House outside Galway, surrounded by nature and myth. Immersing the group in the elements and the holding of the land we can look deeper into our patterns and our learnt dynamics and entanglements, and open up to see them through a systemic lens.

The foundation training is open to everyone who has an interest in family constellations and would like to dive deeper into the understanding of this work. It is also a pre-requisite for anyone wishing to continue on to train as a facilitator in the full training.

The Advanced Training is available to those who have completed the foundation training. This is a yearlong, 8 module training. Learning the art and theory of facilitating constellations on an individual and group basis, woven in with your own healing journey and personal growth.

This **training** is experiential and revealing, it is shadow and light. You will learn to develop your intuition and attunement to the wisdom in the 'field'. Looking through the systemic lens you will learn to recognize family patterns and inherited illnesses. Studying the wealth of information from other facilitators and different ways of using this work you will examine money issues, work and home issues, relationship issues and much more.

Upon completion it is my dream that you will then take this work out into your own communities and continue what Bert Hellinger started many years ago
