

Family Constellations Facilitator Training November 2023 to April 2025

With Róisín Fallon & guest facilitators including Barbara Morgan and Stephan Hausner

The goal of this unique facilitator training is to give you a solid foundation in systemic philosophy and principles, and their application in individual and group sessions. The training balances understanding, experience, observation, practice, collaboration, compassion and individual development to support mastery and confidence when working in service to clients.

Who is it for?

This Family Constellations training is primarily a deep inner journey which can be taken for personal development.

Trainings are also designed for people who wish to explore a **career as Family Constellators**. They are also **excellent for professionals** who are working with people (coaches, therapists, healthcare providers, teachers, counsellors, etc.) so they can incorporate Family Constellations into their current practice.

- Small, intimate group everyone will have lots of opportunities to do personal work and facilitate one another.
- Throughout the training you will receive additional support including two private tutorials with Róisín & group zoom calls. We will also be setting up smaller groups to meet between modules for practice, self-directed learning and support.
- Guest trainers will take part in some of the modules, this will greatly enhance your learning and show you some different ways in which constellation work can be applied.

Please note, that once the programme begins, you commit to paying the full course amount.
